

Emergency Evacuation

It is vital that if an emergency situation arises, it is handled effectively and efficiently. Ensuring that Educators and children know what to do in an emergency situation requires vigilant planning and practice.

Regularly practicing the drills for emergency situations also provides an opportunity to help support and build on children's coping mechanisms and resilience.

NATIONAL QUALITY STANDARD (NQS)

QUALITY AREA 2: CHILDREN'S HEALTH AND SAFETY		
2.2	Safety	Each child is protected.
2.2.1	Supervision	At all times, reasonable precautions and adequate supervision ensure children are protected from harm and hazard.
2.2.2	Incident and emergency management	Plans to effectively manage incidents and emergencies are developed in consultation with relevant authorities, practiced and implemented.

EDUCATION AND CARE SERVICES NATIONAL REGULATIONS

PURPOSE

Our Service has a duty of care to maintain the safety and wellbeing of each child, educator, and all using or visiting the Service during an emergency or evacuation situation.

SCOPE

This policy applies to children, families, staff, management, and visitors of the Service.

IMPLEMENTATION

We define an emergency as an unplanned, sudden or unexpected event or situation that requires immediate action to prevent harm, injury, or illness to persons, or damage to the Service's premises. Emergency situations may pose a risk to an individual's health and safety. It is important that Services identify potential emergencies that may be specific to their location and environment.

To ensure compliance with National Regulations, our Service will ensure that:

- Emergency evacuation plans are displayed in prominent positions near each exit and in the children's classrooms.
- The plan includes a floor plan for ease of reference.
- Emergency evacuation rehearsals (drills) will be practiced every three months by the responsible person, all staff members, volunteers, and children present on the day.
- Each drill will be documented.
- The Approved Provider will conduct a risk assessment to identify potential emergencies that are relevant to the service.
- Our emergency telephone list (located next to the telephone) includes the numbers for:
 - Local fire station,
 - Local Police Station,
 - State Emergency Services.

Circumstances under which an emergency evacuation will occur may include:

- Fire within the building or playground.
- Fire in the surrounding area where the Service may be in danger: If you are unsure how close the fire is contact your local fire station or local Rural Fire Service. Alternatively we use the app (*VicEmergency*), as telephone services can be disrupted during fires.
- Flood (call State Emergency Service).
- Terrorist threat.

- Other circumstances may include: gas explosion, traffic accident, or any event which could render the building unsafe.

Procedures

- Our Service will maintain an up-to-date register of emergency telephone numbers. A copy of the current list will always be available in the emergency evacuation bag.
- Emergency telephone numbers will be displayed in the office.
- National Regulations state that Evacuation rehearsals are to be practiced every 3 months: However, to ensure best practice our Service will conduct emergency evacuation drills in a weekly block once a term so that all children and staff experience an evacuation on a regular basis.
- Each time an emergency evacuation drill is performed it is to be timed and documented in the *Emergency Evacuation Rehearsal Record*.
- After reflection, notes on any areas that need improving or revising are to be documented in the *Evacuation and Lockdown Report*. Educators will discuss and implement strategies to make continuous improvement to procedures which may be documented in the Service's Staff Meeting minutes and Quality Improvement Plan.
- In the event of limited Educators (e.g. early morning or late afternoon), staff members are to work together to perform the duties as per the evacuation plan (the roster should support one Certified Supervisor being on the premises at all times to take responsibility and delegate duties). This scenario may be discussed and documented in the Service's Staff Meeting Minutes (WHS).
- In the event of a fire within the service resulting in damaged phone lines, a staff member will seek assistance from neighbouring residents or businesses and / or use the mobile phone as per the Emergency Evacuation Plan.
- All fire extinguishers, fire blankets, fire hoses, and other emergency equipment located throughout the service will be inspected and tested at six monthly intervals by an authorised company as per the Australian Safety Standard AS 1851: *Maintenance of Fire Protection Systems and Equipment*.
- Extinguishers will be emptied, pressure tested, and refilled every five years.
- All tests performed on emergency equipment and the date on which it was tested will be recorded on a label or metal tag attached to the unit. Certificates to verify testing will be filed.
- The Nominated Supervisor is responsible for ensuring all educators, including casual/relief educators and staff members, are familiar with our Emergency Evacuation Policy and procedure.

Important: The notification of a serious incident to a regulatory authority (within 24 hours) is required when emergency services have attended an education and care service in response to an emergency, rather than as a precaution or for any other reason.
