

PROFESSIONAL DEVELOPMENT POLICY

Professional development is a term used which includes workshops, conferences, in-service training sessions, formal studying, readings, and professional research. The contribution of professional development to developing practice can be a source of deep professional satisfaction, for both individual practitioners and the early childhood education and care service collectively. A commitment by early childhood educators to ongoing professional development is the key to effective continuous improvement and the provision of quality childcare. Engaging in professional development helps to identify individual educator's areas of strengths and areas requiring improvement.
